

Incorporating **AIRFIX** Tools and Fasteners

Abmat™ GEO FABRIC

ABMAT™ Geo-Fabric is constructed of needle punched Polyester short filaments. These filaments form a stable matrix exhibiting excellent strength and hydraulic characteristics. Allowing this product to be used for numerous situations where an economical solution is required for filtration and soil stabilisation in domestic landscaping applications.

Available in 50m rolls and convenient Handy Packs, smaller rolls sizes designed to accommodate most frequently purchased sizes.

COLOUR	ROLL WIDTH	ROLL LENGTH
Grey	1m	7m
Grey	1m	15m
Grey	1m	50m
Grey	2m (Centre folded to 1m)	7m
Grey	2m (Centre folded to 1m)	15m
Grey	2m	50m

SPECIFICATIONS	
Construction	Nonwoven Polyester
Thickness	1.2mm
Weight	120gsm
Tensile Strength	4.5 kn/m
Tear Strength	0.12 kn
Flow Rate	250L/m ² /S
